

WATER-TO-AIR PORTABLE AIR-CONDITIONER

Pinguino PAC CT 300

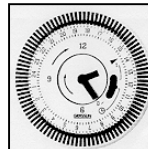

COOL AND
SUPERCOOL

Unique twin condenser system can be used on air only cooling for normal use and with water to boost to maximum power – automatically switches to air only if water runs out.

TIMER

24 hour timer: to enable you to plan your air conditioning needs ahead.

AIR FILTER

Permanent air filter to trap dust particles.

TECHNICAL DATA

Rated voltage/Frequency	V~Hz	230~50
Cooling capacity		
Air function	Btu/h-W	6100-1790
Water function	Btu/h-W	8500-2490
Input power	W	850
Air flow	m ³ /h	230-370
Moisture removal	l/24h	24
Noise level	dB(A)	49.5
Suitable for room sizes approx.		4 x 6 m
Water tank capacity	l	14.5

PAC CT 300

- Cooling power : SUPERCOOL: it operates on water for maximum power (8500 Btu/h) COOL: (6100 Btu/h) operating on air.
- It dehumidifies automatically, removing 1L per hour of excess moisture.
- 24-hour timer.
- Room thermostat.
- 2-speed ventilation.
- Environmentally friendly refrigerant gas R 407c.
- Low noise level
- Rolling castors for ease of movement
